

21st National Conference of Emerging Researchers in Ageing

28 November 2023 | Virtual | *Courage and Creativity in Ageing Research*

CALL FOR ABSTRACTS

'ERA 2023'

Emerging Researchers in Ageing (ERA) is sponsored by the ARC Centre of Excellence in Population Ageing Research (CEPAR).

The 21st National Conference of Emerging Researchers in Ageing ('ERA 2023') is being chaired by Professor Evonne Miller, Director of the QUT Design Lab at the Queensland University of Technology.

ERA 2023 offers a unique opportunity for emerging researchers in ageing to share their research; this is the only national conference in Australia focusing on the work of higher degree research students and other early career researchers across a range of disciplines.

An interactive virtual event

The ERA 2023 conference will be held virtually, with interactive activities to maximise opportunities for participation, including:

- An **Ask the ERA Brains Trust** session, for selected students and early career researchers to get answers to key research questions from relevant experts (call for expressions of interest forthcoming)
- A **Virtual breakout room**, for attendees to connect with other emerging researchers during the conference

In recognition of the ongoing impact of the pandemic on emerging researchers, conference attendance will be heavily subsidised, with all **early bird registration only \$50** (AUD).

Online registration is now open via [Shop.Monash](#)

Call for abstracts

The ERA 2023 Conference Organising Committee warmly invites the submission of abstracts for **oral presentations** from Honours, Master's, PhD, Professional doctoral students, and early career researchers engaged in ageing-related research from any discipline.

All oral presentations will be conducted 'live' via Zoom (i.e., not pre-recorded); presenters must be available 10am - 5pm (AEST) on Tuesday 28 November 2023 to present (please check your local time, noting daylight saving).

Further details are provided in the **Abstract Guidelines and Submission Form** available from era.edu.au/ERA+2023

The call for abstracts is now open and will close on **Thursday 31 August 2023**.
